
Announcement of Roundtable meetings on REMIT implementation

Ljubljana, 17 January 2020

Subject: Invitation to participate in the Agency's REMIT implementation roundtables

In connection with the implementation of Regulation (EU) No 1227/2011 on wholesale energy market integrity and transparency (REMIT) and Commission Implementing Regulation (EU) No 1348/2014, the European Union Agency for the Cooperation of Energy Regulators (ACER) will organise stakeholder roundtable meetings with European Associations of Energy Market Participants on REMIT implementation during 2020 and 2021.

The purpose of these stakeholder roundtable meetings is to consult on material updates of the REMIT reporting user package, to listen to the views of, and obtain information from, relevant parties. They will be invited to comment on selected questions on data collection and other compliance issues under REMIT and its Commission Implementing Regulation, whenever further consideration would be useful.

Contributing to the roundtable meetings is a requirement for all the attendees in order to sustain their eligibility and receive invitations to the meetings. The roundtable meetings should not be regarded as an opportunity to receive guidance from the Agency.

Roundtable meetings will be arranged separately for the European Associations of Energy Market Participants (AEMPs) on transaction reporting guidance and data quality. ACER aims at ensuring a balanced participation of the different constituencies at EU level. This is why this call is limited to European Associations of Energy Market Participants representing energy market participants from several EU Member States. National associations may participate in the roundtable meetings through the European association(s) they are member of.

In addition, the Agency will continue the roundtable meetings with the Organised Market Places, Inside Information Platforms and Registered Reporting Mechanisms registered with the Agency. Entities published in the respective lists on the REMIT Portal are automatically eligible for participating in these roundtable meetings and there is no need for their registration for the 2020-2021 roundtables.

Further roundtables for additional stakeholder groups may be considered as and when needed.

The roundtable meetings will be held in Ljubljana. Stakeholder representatives from European Associations of Energy Market Participants are invited to register online at <https://surveys.acer.europa.eu/eusurvey/runner/aemps-roundtable-call-2020-2021>, by doing so

expressing their interest in participating in the roundtables. The deadline for application is **28 February 2020**. Applications received after this deadline will not be considered.

In order to ensure transparency and openness, the organisation to which the applicant belongs should be registered in the EU Transparency Register at the following link: <https://ec.europa.eu/transparencyregister/public/ri/registering.do?locale=en>

The roundtable meetings can accommodate a limited number of participants. In the interest of admitting as many stakeholders as possible while ensuring variety, only up to two participants per organisation may normally participate in the roundtable meetings.

Further information about the dates, draft agendas and more details will be sent to registered participants in due course, well in advance of the relevant roundtable meeting.

Yours Faithfully,

signed

Volker Zuleger
Head of the Market Integrity and
Transparency Department
